# TKGYPSUM<sup>TM</sup> *plus*

Turf King Gypsum Plus is a high quality Gypsum reacted with organic acid for rapid calcium and sulfur availability. Application rates between 250 - 500 pounds per acre. Increases the speed for flushing excessive sodium from the soil profile, while adding a great source of calcium. Enhances water penetration, while reducing labor and transportation cost.

Safe to apply any time of the year.

Formulated for Golf Courses, Athletic Fields and Lawns. SGN 100 & 220

Turf King Gypsum Plus Guaranteed Minimum Chemical Analysis	
Calcium Sulfate (CaSO <sub>4</sub> -2H <sub>2</sub> O).....	70%
Calcium (Ca) Equivalent.....	24%
Minimum Sulfur (S).....	14%
Moisture Content.....	>1%

# TKCAL<sup>TM</sup> *plus*

Turf King Cal Plus is Enhanced High Calcium is reacted with organic acid for rapid calcium availability and increased pH. Application rates between 250 - 500 pounds per acre. Increases pH up to four times faster than traditional pelletized lime. Reduces labor and transportation cost.

Safe to apply any time of year.

Formulated for Golf Courses, Athletic Fields and Lawns. SGN 100 & 220

Turf King Cal Plus Guaranteed Minimum Chemical Analysis
